New Funding Available to Help Combat Homelessness. Glendale families who are homeless or in danger of losing a safe place to live may find there's help available thanks to an additional \$316,132 of funds recently awarded to the city of Glendale.

The federal funds, which are part of the American Recovery and Reinvestment Act, will be used to serve two groups:

- those who are at risk of becoming homeless and need temporary rent or utility assistance to be able to maintain housing, and
- those who are homeless, residing in emergency or transitional shelters and need temporary assistance to obtain permanent housing.

To help these groups, the funding can be used for short-term or medium-term rental assistance, or items such as security and/or utility deposits. The \$316,132 of funding was awarded to the city based on the success of the program and its impact on the community. Previously, city staff oversaw the use of more than \$914,122 and was acknowledged for efficiently using the money to help people in Glendale affected by the recession.

To learn more about the new funding and who qualifies for assistance, check online at www.glendaleaz.com/cap or call the city's Community Action Program (CAP) at 623 930-2854.

Residents' Input Sought on GO Transportation Program. The GO Program Open House will be held from 4:30-7 p.m., Wednesday, April 13, at the Glendale Civic Center, 5750 W. Glenn Dr.

This opportunity will give residents a chance to speak with Glendale transportation representatives and engineering consultants, learn more about current and upcoming transportation projects, and provide input on the program. Light refreshments will be served.

In 2001, Glendale voters approved Proposition 402, which dedicated a half-cent sales tax for transportation improvements and created the city's GO Transportation Program. To date, GO program efforts have resulted in expanded transit services, and enhanced traffic flow and safety on Glendale streets and at intersections. There has also been further development of bicycle and pedestrian facilities throughout the city. Many additional improvements are scheduled for construction during the next several years. These projects will be featured at the open house and in the GO Program Annual Report.
